

Dear Friends,

May 2014 be a Healthy, Prosperous, New Year for all!

As we sit snuggled by a warm fire on a frozen day, or out in the sun on the golf course down south, it is time to remember that our lakes continue to experience changes. They need our continuing vigilance to provide us with many more generations of enjoyment!

LPSA is proactively working to keep our lakes, town, and village, healthy and vibrant. We need to spread the word and encourage others to join us in this very worthy cause.

### **If our lakes die, so does our town!**

Many other areas did not *'invest up front'* to protect their lakes and now are paying a very costly price to try and rescue their lakes, towns, and property values. **Many hours of volunteer service**, professional services, as well as some paid services, are being invested each year in the Lake Pleasant-Sacandaga Area by LPSA. More and More people are seeing the amazing positive effect of LPSA.

Won't you please consider SPONSORING in 2014, a New Family (for one year, as an introduction), to LPSA. They can be family members, neighbors, or friends. The cost is only \$20.00 per family.

- They will receive a warm personal welcome, and letter
- A Small welcoming gift
- Your name as their Donor/ Sponsor
- And the priceless introduction to the work of LPSA

**You can find the LEGACY Membership form on the [lpsa-ny.org](http://lpsa-ny.org) web site under the "Contact Us" heading on the upper right bar.**

A Healthy Lake, Village, and Town is the most wonderful LEGACY of LPSA.

Let's pass a **BEAUTIFUL LEGACY** on to the generations yet to come.

Lyn Van Druff, Legacy Membership Chair, LPSA Board
